The Medieval Zone

In the Medieval Zone you choose a 'Mental' game. You are led to a dungeon, wherein a famous riddler is held.

"It's very boring in here," they say, "when I'm not being tortured, that is."

"So I have a little game," they continue, "I use the dungeon items to create riddles. If you **scramble** to solve the riddles you'll know my name."

The plague-carrying creature whose bites I fear (3)
Has this and becomes an archaic deer (4)

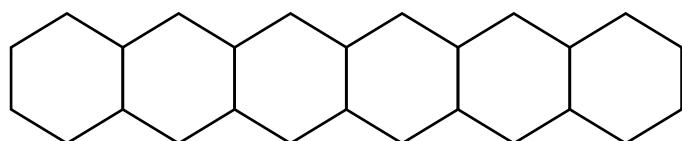

Its many eyes watch from the corner of the room (6)
With this it feels my misery, my gloom (7)

The device that pulls till my sinews fail (4)
With this leaves a footprint on a dusty trail (5)

They bind me tightly, though they're frayed (5)
With this on a wall they'll be displayed (6)

The branding tools in the coals a'soulder (5)
Need this to make them grey and older (6)

A restrictive home for beast or bird (4)
With this a mealtime prayer is heard (5)

The Industrial Zone

In the Industrial Zone you choose a 'Skill' game. Your room holds a huge circuit board and the notice on the wall:

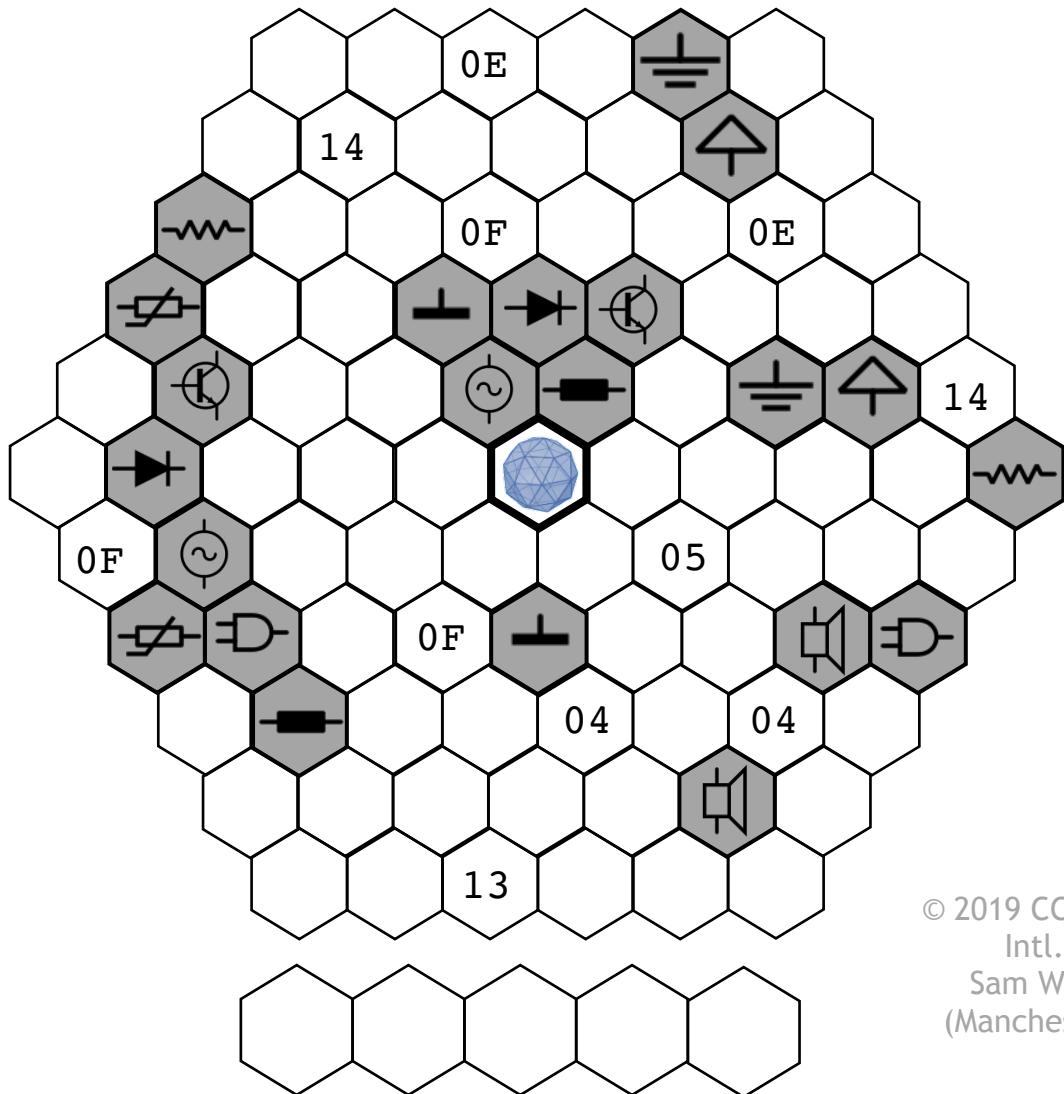

**EVEN HIGH QUALITY MACHINES BREAK OCCASIONALLY, IN CASE OF
LENGTHY MALFUNCTIONS THE CIRCUIT MAY NEED TO BE REBUILT
IN ORDER TO COMPLETE THE CIRCUIT:**

HAVE SAME SYMBOL NODES CONNECTED IN PAIRS

EVERY CELL MUST HOLD A WIRE

X – CROSSING WIRES IS NOT ALLOWED

After you complete the circuit you boldly collect the crystal; what plays as you leave?

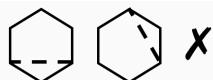

The Futuristic Zone

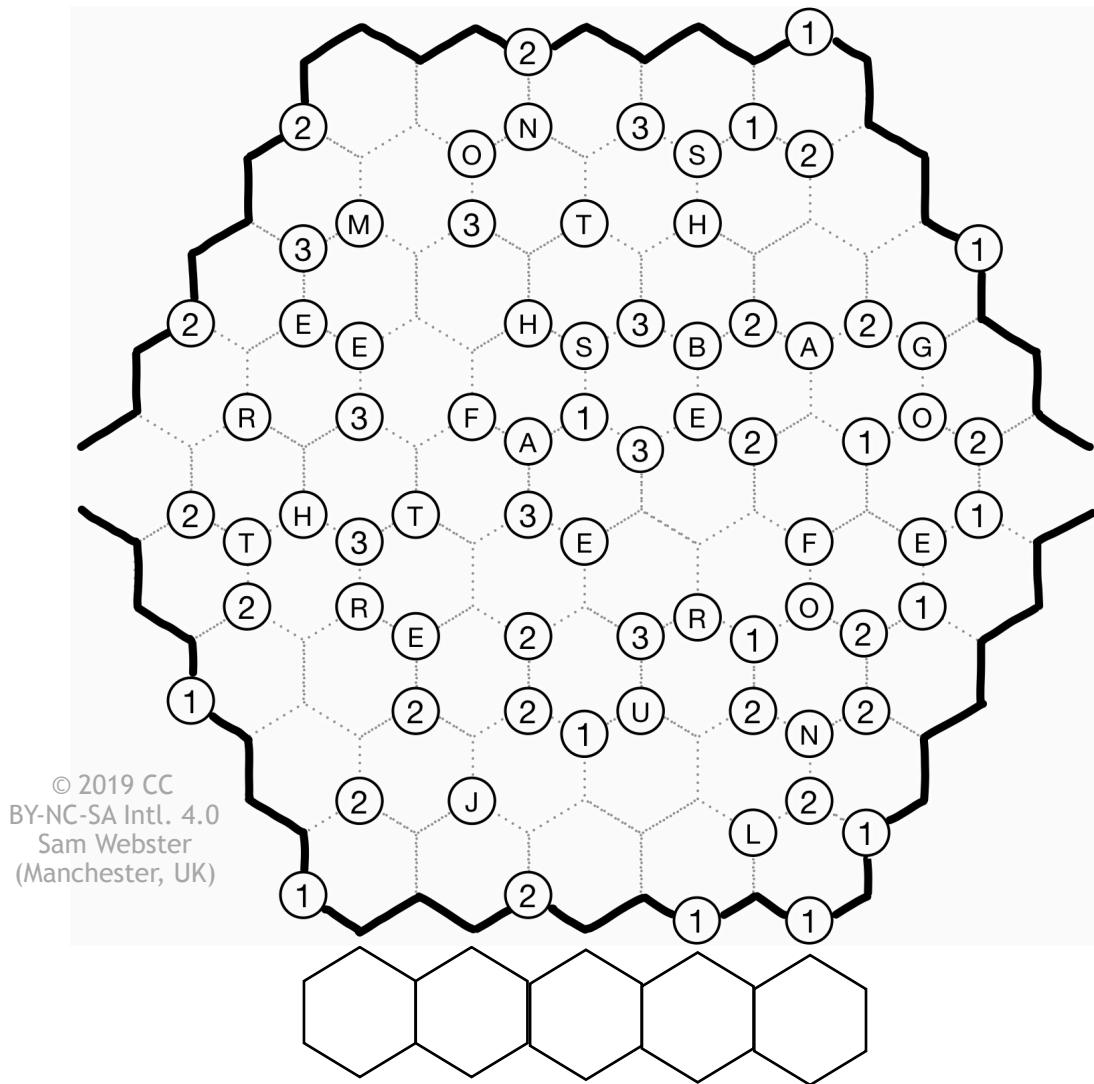

In the Futuristic Zone a Mystery game is chosen. In the room you are confronted with a large hexagonal grid.

The sign on the wall reads:

WARNING: LASER DEFENSE SYSTEM
EACH CELL CONTAINS A SINGLE LASER TRIPWIRE
NUMBERS INDICATE HOW MANY LASERS HIT THAT POINT
LASERS DO NOT HIT LETTERS

Complete the maze and find out how you should make your way through it

META – The Crystal Dome

As you stand in the huge glass structure the fans start, everything around you is swirled around. “Ready for one **last cry?**” your host asks in that strange **mode** of speech he has.

To **join** the list of champions your team must work **together**, to collect as many tokens as possible.

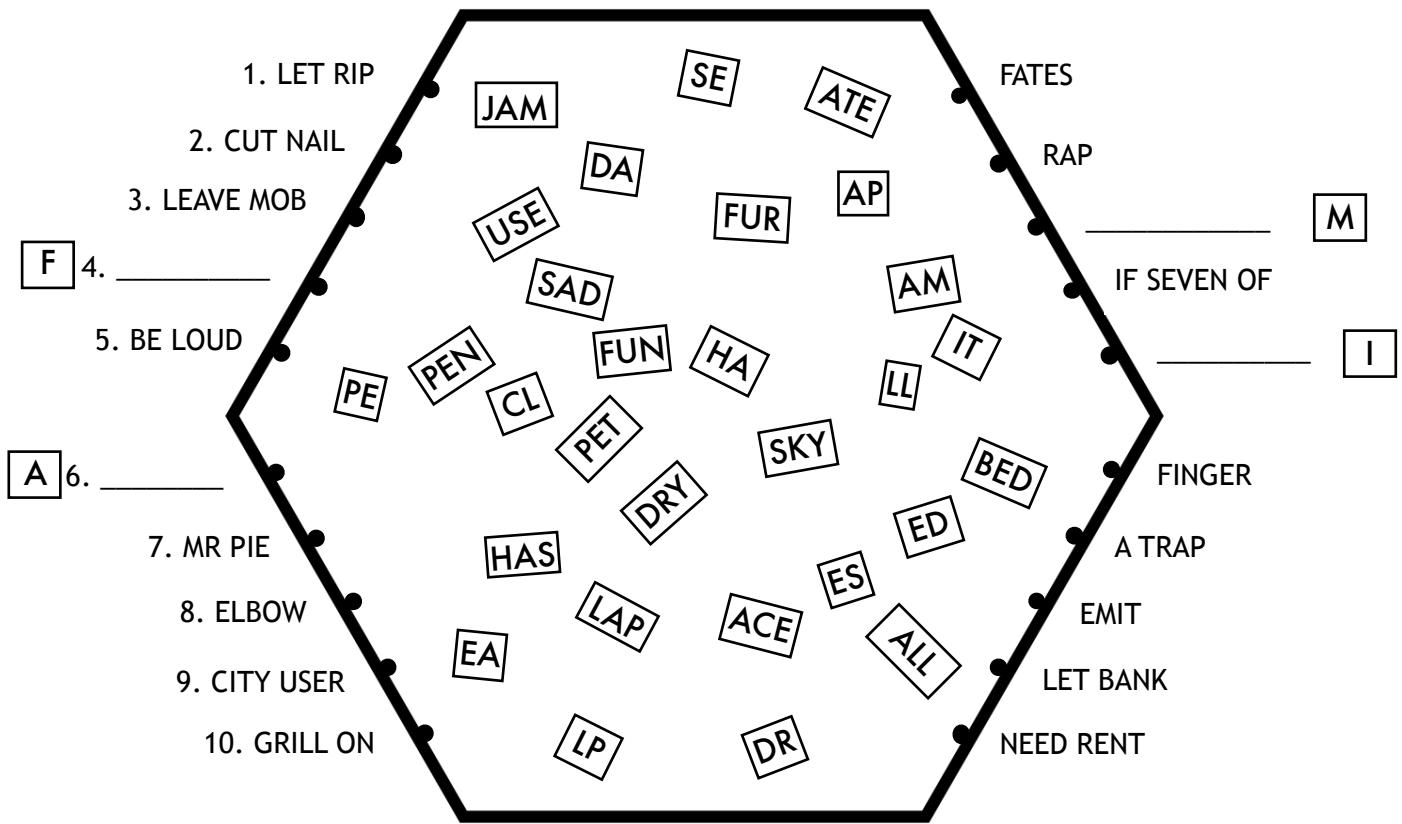

In **order** to win the prize they'll have to **add** up all the gold tokens (3 letters) you collect **before** deducting the silvers (2 letters). What remains will tell you what you win.
