

## "Fast Fruit" Edition!

### Setting Up The Game

1. A Puzzled Pint GC member acts as the judge and assembles exactly 4 players. Spectators are welcome!
2. The judge distributes 10 red apples (face down) to each player.
3. Once players have all 10 red apples, they may look at them.

### Playing The Game

1. The judge picks a green apple, reads it aloud, and places it (face up) on the table.
2. All players choose one red apple from their hand (based on the green apple) and plays it face down on the table.
3. The judge shuffles the face-down red apples so that nobody knows who played which apple.
4. The judge flips over the red apples one at a time, reading them aloud as they're revealed to all players.
5. The judge selects her favorite red apple (based on the green apple) of those played and awards one point to the person who played it.
6. The winning pair of red and green cards is set aside. Spectators may wish to keep track of the winning word pairs!
7. Repeat.

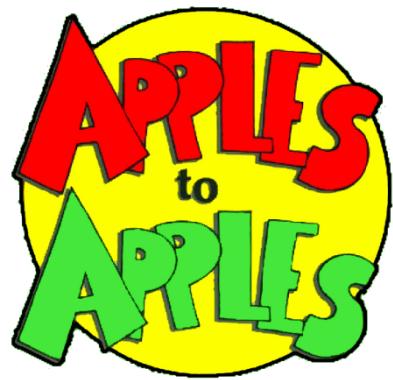

### Winning The Game

Keep track of how many points each player has won.

The game is over when one player reaches 3 points!
